Cantilever Specialised Shelving

Flowsell® offer two specialised shelving systems

Cantilever SlipShelf

A cantilever wire shelf with a Bottle Slide attached by screws. Shelf Fronts and FastFit Dividers can be fitted to the shelf to make it an effective gravity feed shelf. Dividers can be quickly adjusted to suit any product. The wire base allows dust to pass through the shelf. The shelf is fitted to gondolas by multi-angle brackets.

Key Benefits:

- Superior gravity feed
- Dust free
- Flags stock outs

Cantilever SlipShelf Widths	
600mm	915mm

Cantilever SlipShelf Depths				
305mm	355mm	405mm	455mm	505mm

Cantilever TrayShelf

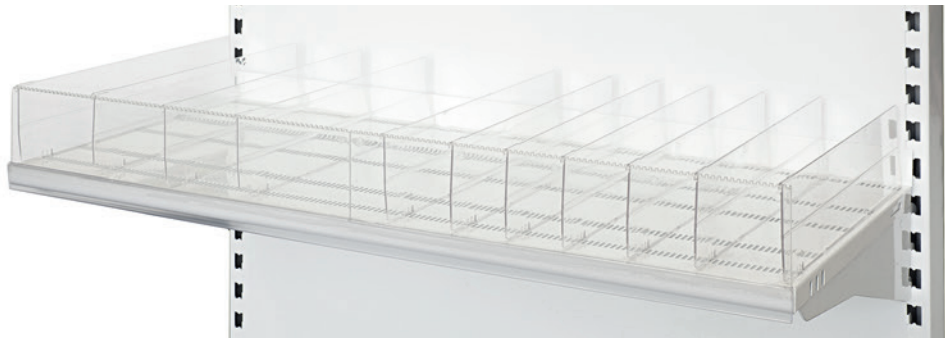

A flat metal shelf with a channel along the front to fit a Shelf Front. FastFit Dividers lock under the shelf at the rear and into slots in the base of the tray. Hooks on top of the dividers lock on to grooves on the top of the Shelf Front. This Cantilever TrayShelf can be positioned either flat or on an angle on multi-angle brackets. The shelf can be used for any product but is ideal for chips and other unstable products that are difficult to merchandise. Slots on the side of the shelf allow it to be mounted on Support Pins in a cabinet shell

Key benefits:

- Excellent shelf management
- Gravity feed
- Flexible application
- Flags stock outs

Cantilever TrayShelf Widths	
600mm	915mm

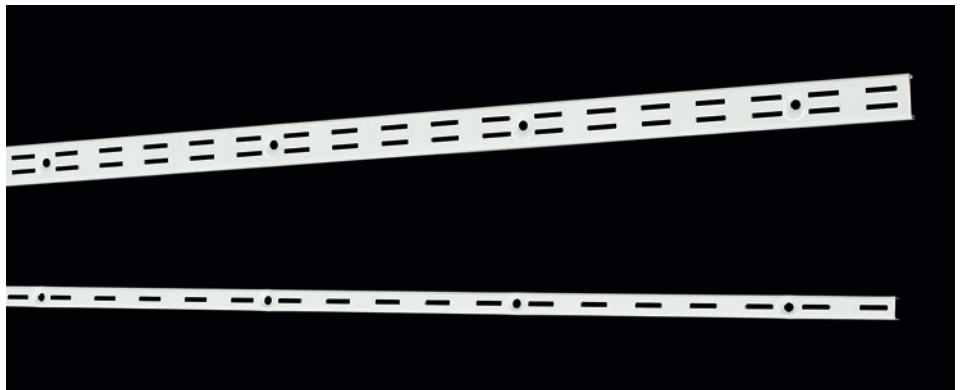

Cantilever TrayShelf Depths				
305mm	355mm	405mm	455mm	505mm

Wall Stripping

Single and Double Wall Stripping can be used to assemble shelves on walls or in cupboards. Single Wall Stripping is narrow to minimise space required to fit shelves in a cupboard.

Slot Pitch	41mm
Length	1800mm
